Background

One of the keys to growth is ensuring great service for carriers. The team at Running Ox is committed to providing excellent service. It is why they would often worked overtime to ensure invoicing was done timely and correctly. Taking this manual, time-intensive approach prevented the Running Ox team from focusing on sales and other strategic growth areas of the business.

What Navix Did

Running Ox implemented Navix's industry-leading freight audit and invoicing software to automate their freight audit and invoicing process, improve efficiency, and enable better client and carrier satisfaction.

“We saw an immediate ROI with time back to focus on growth initiatives.”

Reiss Bright CEO

Results

52%
